Enzymes As You Need

European Biotech Company

Certification ISO-9001

Over ¼ employees with PhD

CELEBRATING 25 YEARS

ENZYMES AS YOU NEED

• Proteinase K

• Molecular Biology Grade
Available in generic forms & as tailor-made products.
• NGS Grade
Ultrapure for sensitive and precise applications
Golden standard with elevated optimum reaction temp. (50 °C).

• Heat-Labile Nucleases

Possibly the best solution for Biotech purification processes.

Extremely robust and easy to remove.

• Phi29 Polymerase

Highly efficient isothermal DNA amplification.

• QPCR Mixes

Specially designed kits for fast, reproducible

and sensitive DNA amplification in Real-Time PCR reaction.

• Thermostable Polymerases

Vast choice of products for routine & sophisticated assays. Now available in DNA free form.

• Tth &T4 DNA Ligases

Ultrapure, dedicated to NGS and other precision application.

• RNase Inhibitor

Very stable! Proven stability in 37 °C for 4 weeks.
