

RIBOPROTECT Hu RNase Inhibitor Lyo-ready

version: 1.2021

Cat. No.: RT35L

Product name	<i>RIBOPROTECT Hu</i> RNase Inhibitor Lyo-ready
Catalog numbers	RT35L
Concentration	XX U/ μ l
Unit definition	One unit is defined as the amount of <i>RIBOPROTECT Hu</i> RNase Inhibitor required to inhibit the activity of 5 ng of ribonuclease A by 50%.
Components	<i>RIBOPROTECT Hu</i> RNase Inhibitor Lyo-ready
LOT	QCEXXXXXX
Expiry date	XX.XXXX
Storage conditions	2-8°C for up to 4 weeks, for a long term storage - 80°C is recommended, up to 3 freeze/thaw cycles is acceptable
Storage buffer	20 mM HEPES-KOH; 50 mM KCl; 8 mM reducing agent; pH 7.6 * Trace amounts of glycerol may be present
Shipping conditions	Blue ice
Specification version	PS-RT35L-2.2021
The product is made in Poland	

Quality Control

Parameter	Specification	Analysis
Activity	XX U/ μ l	PASS
Protein Purity Assay ¹	> 90%	PASS
RNase Contamination ²	None detected	PASS
Latent RNase Contamination ³	None detected	PASS
Endonuclease Contamination ⁴	None detected	PASS
Endonuclease Contamination ⁵	None detected	PASS

1. The purity is >90% as evaluated by SDS-PAGE electrophoresis.
2. RNase activity is judged by incubation of 1 μ g of RNA with minimum of 200 U of **RIBOPROTECT Hu** RNase Inhibitor Lyo-ready for 1 hour at 37°C. Results are visualized on an ethidium bromide-stained agarose gel.
3. Latent RNase activity is judged by incubation of 1 μ g of RNA with minimum of 200 U of heat-inactivated **RIBOPROTECT Hu** RNase Inhibitor Lyo-ready for 1 hour at 37°C. Results are visualized on an ethidium bromide-stained agarose gel.
4. Endonuclease activity is judged by incubation of 1 μ g of supercoiled plasmid DNA with minimum of 200 U of **RIBOPROTECT Hu** RNase Inhibitor Lyo-ready for 2 hours at 37°C. Results are visualized on an ethidium bromide-stained agarose gel.
5. Exonuclease activity is judged by incubation of 1 μ g of digested plasmid DNA with minimum of 200 U of **RIBOPROTECT Hu** RNase Inhibitor Lyo-ready for 2 hours at 37°C. Results are visualized on an ethidium bromide-stained agarose gel.

This product has been tested and shown to be in compliance with all specifications.

PRODUCT USE LIMITATION

This product of Blirt S.A. has been developed for research purposes only and it is not suitable for human and animal therapeutic or diagnostic use.

WARRANTY TERMS

Blirt S.A. guarantees that the quality of the product, within its expiry date, complies with the specifications of the Certificate of Analysis provided the product was stored properly in its original packaging. In case of any complaints within the specified warranty period, Blirt S.A. is obliged to replace any batch or Product's item within the Product's expiry date, free of charge. Blirt S.A. awards no other, additional warranties, excluding any other direct or indirect guarantees regarding suitability, productivity, the purpose of use, merchantability, storage conditions or any other factors in relation to products of Blirt S.A.

LIMITATION OF LIABILITY

Blirt S.A. is not liable for any direct, indirect, incidental, intentional, or consequential damages that may result from the use of or inability to use any Blirt product.

By purchasing any Blirt product, a purchaser acknowledges the guarantee terms that indisputably state that the only grounds for a complaint and thereby replacement of the product, free of charge is a detection of the product's defect that compromises its functionality in accordance with its specification.
